

Bring your assets, maintenance, compliance and space management together, in one place.

NHS Trusts are managing more estates pressure than ever, and it's increasingly hard to see the full picture when the information you need is scattered across multiple systems.

- ✓ A maintenance backlog that keeps growing, with limited visibility into where risk is concentrated across wards, theatres and clinical spaces.
- ✓ Compliance and audit requirements that only increase, without one clear, defensible source of truth.
- ✓ Estate, asset, maintenance and compliance data held across multiple systems, spreadsheets and contractors, making it difficult to answer a straightforward question quickly.

Invida: Built for owner-operators like your Trust

Invida is **built for in-house estate teams, managing complex estates** with high-compliance requirements. Delivered through an intuitive, dashboard-led interface, Invida **keeps your team in control of your own data** while managing contractors efficiently and staying audit-ready.

By bringing hard FM, soft services and space management into **one single, truly integrated platform**, you **replace disparate systems, cut cost and complexity**. With flat, transparent pricing and fixed-fee onboarding, you know exactly what you're paying, from day one and beyond.

Why Trusts choose Invida

**One single source of truth:**

Bring your hard and soft FM services, compliance, asset and space management data in one platform.

**We carry the onboarding risk:**

Onboarding is delivered on a fixed fee. If it takes longer than planned, that's on us, not your budget.

**Transparent pricing, no hidden costs:**

Flat, portfolio-based pricing with no per-user or per-data charges, allowing your costs stay predictable as you grow.

**Future-proofed, true SaaS platform:**

Receive every new release free of charge and stay ahead with the latest technology.

**Simplify compliance, stay audit ready:**

Manage all your contractors through one single system, so your Trust is always ready for the next audit.

The difference is in the detail

What you'll often find elsewhere	What you get with Invida
Space management, asset and maintenance data bolted together from separate, acquired products.	One genuinely integrated platform, built as a single system from the outset.
Competitive pricing at the start, followed by rising consultancy and account management fees.	Flat, transparent pricing that stays predictable, with no hidden extras, no surprise invoices.
Platform ownership and roadmap can shift with little notice, unsettling long-standing customers.	A stable platform built specifically for the needs of estate owner-operators, giving you full control over your data.
Onboarding risk and timeline overruns often land on your budget.	Fixed-fee onboarding. If it runs longer than estimated, that's our cost to absorb, not yours.
Upgrades and new features can mean separate projects and additional cost.	One true SaaS version for every Trust with free of charge releases delivered automatically.

Contact our team today to discuss how Invida can help your Trust bring estate, asset, maintenance and compliance information together. We can also direct you to our NHS Trust clients for references.
